Description (revised)

Greetings future Chrononaut! You are currently setting your eyes to "stunned" while you gaze upon this marvel of technology. Since the beginning of time man has wanted to travel through it. And now you can! Built by a crack team of scientists this machine is like no other on the planet! Merely once a school boys dream, this dream is now a reality to the members of the OCTT (Order of Chrononauts and Time Travelers). The OCTT was formed after a fascination turned obsession, and then turned to charming obsession. With Advanced technology designed and built by these passionate persons, this one of a kind machine is now for sale to the public. The government has tried multiple times to steal and sabotage the OCTT's invention. Buy this machine quickly before this machine is snatched by the feds!

Still not convinced this machine is worth your time? Buy it and get your time back! Want more? Win big cash at the horse races! Go back and marry the person you really loved! Or how about not getting in the car that one fateful night! Maybe YOU were the person who REALLY invented the light bulb! Anything is possible with this machine!!! DO NOT PASS UP THIS OPPORTUNITY! THE RICHES OF A THOUSAND KINGS AWAITS!!!

****Please note**** This machine has not been officially documented, certified, guaranteed, licensed or approved by any organization, government, association of any kind. The outcome is not definite or guaranteed and we are not responsible for any un-working parts, injury, broken parts, or the time machine not working in general and not putting you back or forward in time. There are absolutely **NO REFUNDS** ! This machine, once given to you is in your hands. Good luck.

Q: Does it contain a Flux Capacitor?

Jun-14-05

A: Yes it is located in the Micron Diffusal Chamber. There is a gif of the micron diffusal chamber being opened and shut and you can get a glimpse of the...[more](#)

Q: im dubious couldnt you just take our money off pay pal and travel back in time and remove the item , then we will be missing money and not know

Jun-14-05

A: We spend most of our time in the future where money is obsolete. The money made from this machine will be donated to the OCTT of today.

Q: Is duct tape approved by the OCTT for time travel? I know rivets are costly but...

Jun-14-05

A: The material holding the N-1074 Time Traveling Unit together is far from this duct tape you speak of. This is a super binding material from the year 2200....[more](#)
